# Golrang Pharmaceutical Investment group (GPI)

## History

- GPI as one of the pioneer knowledge-based pharmaceutical company established in 2010 by Golrang Industrial Group (GIG) with aim of providing solutions to address the unmet medical needs of patients worldwide.
- By utilization of its knowledge-based subsidiary companies, experienced managers and professional experts; GPI has been succeed to achieve the ability to produce pharmaceutical products from API to FDF for both domestic and global markets

# Golrang Pharmaceutical Investment (GPI)

Golrang Pharmaceutical Investment Company was established in 2010 by Golrang Industrial Group in the Islamic Republic of Iran and entered into the important and fundamental field of the pharmaceutical industry. With the help of its knowledge-based companies, experienced managers and the round-the-clock efforts of specialized staff, Golrang Pharmaceutical Investment Company has paved the route of progress in the field of production and supply of pharmaceutical products in such a way that nowadays, not only it possesses the ability to produce pharmaceutical products from raw material (API) to the final product, but also exports a significant amount of its products to other countries. Currently, 14 companies with 280 products are active in the fields of pharmaceuticals, raw materials, final products, pharmaceutical, herbal and food supplements.
